

52@65

INFRASTRUCTURE THAT SERVES YOU

DECEMBER 2023

PROJECT TIMELINE

One question we receive is what the timeline is for 52@65. Right now the project is still in the design and environmental review stage. The next milestone will be the draft environmental document being completed in Spring 2024. There will be a public hearing in Spring/Summer, which will be another opportunity for the public to weigh in on the design. Learn more at 52at65.com/about-52-65.

ENVIRONMENTAL REVIEW

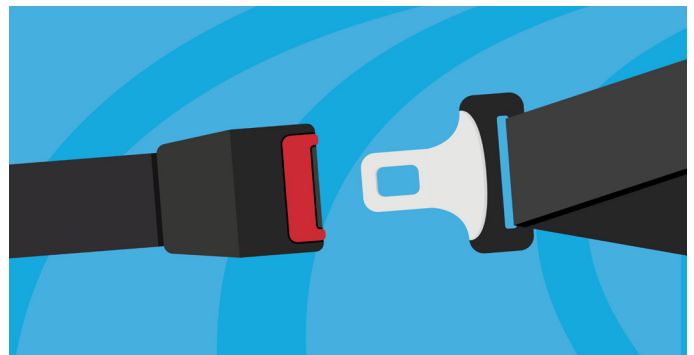

What is included in the environmental review process? There are several federal and state regulations related to environmental review. With federal funding being part of this project, we are evaluating the impact this project will have to the natural surrounding environment. There are also permitting, noise analysis, and a variety of other items our team takes into consideration as we balance the impact of this project with the natural environment.

NATIONAL IMPAIRED DRIVING PREVENTION MONTH

With two of the most celebrated days of the year in December, this month is recognized as National Impaired Driving Prevention Month. We encourage everyone to make a plan for a safe ride home before celebrations begin by designating an unimpaired driver, taking a taxi, or using a rideshare app. Taking this simple step helps keep you and others safe and prevents tragedies. Learn more at bit.ly/nscdriving.

BUCKLE UP, PHONE DOWN

We also encourage everyone to take part in the Buckle Up Phone Down campaign from the Indiana Department of Transportation to improve road safety. Buckling up and driving distraction-free are two lifesaving actions that can help drivers avoid or survive a crash. Learn more at bit.ly/indoathands-free.
