INFRASTRUCTURE THAT SERVES YOU

NOVEMBER 2023

SEE OUR UPDATED FAQ PAGE

With the public comment period closing in October, our team has made updates to the 52@65 FAQ page on our website. Having received several questions and comments, we've added new information to help keep the public informed about 52@65.

One common question we receive is why the existing interchange couldn't remain after the new one is built. The new proposed interchange is being designed to provide improved mobility and full access for all movements between US 52 and Interstate 65 compared to the existing partial-access interchange. Keeping both interchanges could cause confusion for drivers and would be more expensive to maintain. No final decision has been made, but only a single access point is being evaluated in detail at this time. **View the FAQ at [52at65.com/faq](https://www.52at65.com/faq)**

ANTICIPATED PROJECT SCHEDULE

The anticipated schedule can be found on our website. Right now, the anticipated schedule shows the design being complete in Fall 2024, and construction tentatively beginning in Spring 2025. **View the anticipated schedule at [52at65.com/about-52-65](https://www.52at65.com/about-52-65).**

DESIGN AND ENVIRONMENTAL REVIEW PROCESS CONTINUE

Our team is moving forward with other aspects of the project, including a traffic analysis, road design, and continuing the environmental review process. We will continue to share information as it becomes available and seek input on various elements of the project.

We will be holding a public hearing in Spring/Summer 2024, which will be another opportunity for members of the public to comment on 52@65. More details will be shared when the hearing is scheduled.

FOLLOW US ON SOCIAL MEDIA

52@65 has an active Facebook page and X account to share information with the public in addition to our monthly newsletter. Be sure to follow us on social media to stay up to date on the latest information about 52@65.
